Claire,
I read the two documents you commented on and don't have any comments to add. I will look at the Guiding Principles document next.

Subject: My comments on 2 of 3 documents

Carrie,

I'm providing my comments (in track changes) on the Workshop #2 Meeting Summary and the Guiding Principles. I'm copying the EPA Team to hopefully inspire them to also look at the documents and provide timely comments to you as well (and to copy me when they do).

Rather than mess with your format, I am providing a suggestion here for the Guiding Principles document. You are using roman numerals to emphasize the specific key principles for trading. However, it made less sense to me to continue to use those roman numerals for each circumstance where trading is not supported because it gives each one too much emphasis. How about making that overall statement about where trading is not supported roman numeral V, and then each circumstance after that follows the sub-category numeration?

And I still owe you the one from Workshop #1 because I want to spend more time reading that one through carefully. I'd also like to have our EPA attorney Kelly Gable look at it but her time is pretty booked for the next few weeks, so you may get some comments from her after your July 12 deadline.

Subject: Workshop #2 Draft Meeting Summary and other follow-up

Hi everyone,

Please find attached a few documents for your review, with associated review deadlines:

Workshop #2 Meeting Summary: This is intended to capture our discussion and will be posted online after comments are incorporated.	<u>Wed, July 3rd</u>
Workshop #1 Draft Best Practices: This version incorporates all comments received and tracks the changes made to address them. *** <u>These will be part of the Joint Regional Agreement</u> , so it is worth giving them a hard look. If it is easier to review a clean version, feel free to clear comments and changes.	<u>Fri, July 12th</u>
Guiding Principles: This document also incorporates comments and changes. The largest changes were made to make clear the relationship between these principles and the 2003 EPA policy. We have use direct quotes to clarify where we are overlapping with the policy, in contrast to where we are expanding to reflect the PNW context and experience of project partners. *** <u>This will also be part of the Joint Regional Agreement</u>	<u>Fri, July 12th</u>

I have also attached a revised version of the Discussion Guide for Ratios, Reserves, and Baselines that reflects your comments. A clean version will be included in meeting materials posted online today.

All documents are also posted on the [project website](#)

Best,
Carrie

P.S. Also, a quick reminder to send us state rules, regs, policies, and agreements involving confidentiality and FOIA by next Monday, 7/1.
